

Full Stack Developer | Front-End & Design Engineering | React, Node.js, Next.js  
[My Web Portfolio \(warlon.dev\)](#)  
[LinkedIn \(linkedin.com/in/warlonescander\)](#)

PROFESSIONAL SUMMARY

As a dedicated and highly skilled full stack developer, I have 11 years of application development experience across both freelance client work and formal employment. My passion lies in designing and delivering end-to-end solutions, ensuring code quality, and implementing automation to streamline processes. I am proficient in both frontend and backend development, with a deep understanding of web development standards and design patterns, and hands-on experience turning design concepts into polished, production-ready interfaces. With a strong command of JavaScript and extensive experience with frameworks like NodeJS, React, and NextJS, I am adept at building scalable and efficient applications.

CAREER HIGHLIGHTS

- Led and mentored 20+ developers while designing and shipping a complete ERP system deployed to hundreds of cooperative and SME clients across the Philippines.
- Owned end-to-end delivery — design, frontend, backend, API integration, and deployment — solo, on multiple production PWAs spanning billing/collection, subscriber management, and membership platforms.
- Collaborated closely with business users, project managers, and design teams to translate requirements and design concepts into shipped, production-ready features.
- Automated builds, deployments, and code-quality checks, reducing manual overhead and improving reliability across the development lifecycle.
- Adapted quickly across the stack — from legacy VB.NET/ASP.NET systems to modern React, Next.js, and RedwoodJS applications — picking up new frameworks and tools as projects required.

KEY SKILLS

**Frontend:** JavaScript (ES6+), TypeScript, React JS, Next JS, Redwood JS, HTML5, CSS3, SASS, Tailwind CSS, Shadcn  
**Backend & APIs:** Node.js, Express, Python, VB.NET, REST API, GraphQL, Prisma, Zod  
**Databases:** PostgreSQL, MongoDB, MSSQL, Redis  
**Cloud, DevOps & Tools:** AWS (S3, EC2, Lambda, RDS), Digital Ocean, Git, GitHub, Jira, Slack  
**Design:** Figma, Webflow

PROFESSIONAL EXPERIENCE

- Freelance Fullstack Web Developer | June 2022 – Current
- Developed web applications for various clients and industries.
- **Atlas** | The Freelance Movement Tribe – (July 2022- Current)
    - o Features: Membership Management, Learning Management, Affiliate Management, and Coaching Platform
    - o Involvement: Frontend, Backend, API Integration (Email, Payment Gateway) and Deployment
    - o Tech Stack: RedwoodJS, Prisma, GraphQL, PostgreSQL, Digital Ocean (Droplet, Storage and Database)
  - **Billing and Collection PWA** | JND Marketing (December 2023 – Feb 2024)
    - o Features: Lease Management, Billing and Collection Modules (Internal Platform)
    - o Involvement – Design, Frontend, Backend, API Integration and Deployment (Solo Project)
    - o Tech Stack: NextJS, TypeScript, Shadcn, Tailwind CSS, NextAuth, PostgreSQL, Railway, Inngest, ChartJS, Zod
  - **Subscriber and Employee Portal PWA** | General Telephone Systems Inc. (May 2024 – Feb 2025)
    - o Features: Subscriber Portal, Subscriber Management, Service Orders, Automated Billing, Collection (Payment Gateway Integration)
    - o Involvement – Design, Frontend, Backend, API Integration, Microservices, and Deployment (Solo Project)
    - o Tech Stack: RedwoodJS, Prisma, GraphQL, PostgreSQL, Python, Node JS, AWS Services (RDS, Lambda, EC2, S3, SNS)
  - **Webflow Developer** | Alpha Dental Solutions (Jan. 2024 – Current)

- o Design and Build Dental Websites, Optimize for Conversion and SEO
  - o Tech Stack: Figma & Webflow
- Various Landing Page and Websites
  - o [Medical Outsourcing Agency Website](#) (Built w/ Funnelfy)
  - o [Real Estate Website](#) (Built w/ HTML, SASS, and Vanilla JavaScript)
  - o [Marketing Agency](#) (Built w/ React JS and Flowbite Components)
  - o [Debt Relief Company](#) (Built w/ Webflow)

#### IT Manager, Integr8 Software Solutions, Dasmarinas Cavite | Mar 2016 – May 2022

Managing a team of developers, monitor and evaluate project performance, oversee the implementation of client software projects, and develop customized solutions that meet clients' requirements and standards.

- Developed a **complete and comprehensive ERP System** along with additional subsystems that are required by various clients that fits to their specific needs.
- Successful deployments and implementation to hundreds of cooperative and SME clients all throughout the Philippines
- Managed and trained over 20+ developers to conform with the team's requirements in terms of programming styles, tools, and frameworks.
- Tech Stack: .NET Framework, VB.NET, ASP.NET, MVC, Microsoft SQL Server, Entity Framework, Crystal Reports

#### IT Staff, Software Unit, Hocheng Philippines Corporation, Dasmarinas Cavite | Sep 2015 – Feb 2016

Create software designs based on specific requirements, implement them through coding, and coordinate with end-users for testing and revisions.

- Enhanced and updated an existing payroll program to accommodate the needs of over 300 employees.
- Added subsystems of the payroll program, which includes 13<sup>th</sup> Month Pay processing, Offsetting, Payroll adjustments, and Alphalist generation.
- Tech Stack: VB.NET, Microsoft SQL Server, Crystal Report

## EDUCATION

---

**MERN Stack Development**, Zuiitt Coding Bootcamp | 2023

**BS Computer Engineering**, Lyceum of the Philippines University Cavite | 2010-2015
